Dr. Nancy Rappaport, a best-selling author and CHA child psychiatrist, is taking her turn on the stage in her one woman show. Diagnosed with breast cancer in August 2015 at age 55, Dr. Rappaport began writing as a means to integrate her new status as “patient” with her other, more comfortable roles as doctor, wife and mother of three. In *Regeneration*, through an autobiographical persona, Dr. Rappaport explores how she cultivated strength and joy as she journeyed through illness. In an unexpected twist she finds courage at Mount Auburn Cemetery.
